Relationship between Land and Estuary

Draw a diagram that shows the relationship between land and estuary. Do our actions on land impact the estuary? Is there pollution coming from land & where are the sources? What kinds of pollution might there be? How does it get to the estuary? What happens to the estuary when it reaches? Feel free to do research to make your diagram thorough. Use labels and arrows in your drawing to show how the land may impact the estuary. Describe your diagram below.

LAND → ESTUARY

A large, empty rectangular box with a light blue border, intended for the student to draw a diagram showing the relationship between land and estuary.

DESCRIPTION

A large, empty rectangular box with a dark blue border, intended for the student to describe their diagram.

Relationship between Land and Estuary

Draw a diagram of how the estuary impacts the land. Does the estuary provide resources and a place to enjoy? How does the estuary contribute to the east end economy? Do wildlife benefit from the estuary? Feel free to do research to make your diagram thorough. Use labels and arrows in your drawing to show how the estuary benefits us on land. Then describe your diagram below.

ESTUARY → LAND

A large, empty rectangular box with a light gray border, intended for the student to draw a diagram showing the relationship between the estuary and the land.

DESCRIPTION

A large, empty rectangular box with a dark blue border, intended for the student to describe their diagram.
